There is nothing releasable at this time.

Thank you and take care - Susan

Thanks for the fast response on the MOU!
Anything releasable on Project Jonah holding an option (after presumably paying something) on land owned by SVCC Education Foundation? Not seeing anything on the foundation website or form 990 about that...

Thanks!
Grant

"option on property owned by the Southwest Virginia Community College Foundation near the college's campus."

Grant,
In response to your FOIA request, the MOU that was provided last year (attached to your email) with regard to training for the potential fish farm has not yet changed nor has it been executed at this time. This agreement will likely not be executed until the fish farm is indeed built and close to completion. I apologize we do not have additional updated information at this time.

Thanks-
Susan
