RE: ICE FOIA Case Number 2016-ICFO-46208

Dear Mr. Smith:

This is the final response to your Freedom of Information Act (FOIA) request to Federal Bureau of Investigations (FBI) dated October 13, 2011. You are seeking records pertaining to HELI TRADING LTD. arms smuggling.

A search of FBI records responsive to your request produced records that originated from U.S. Immigration and Customs Enforcement (ICE). FBI referred these records to ICE for review and processing under the FOIA, 5 U.S.C. § 552.

After review of the records referred by FBI, I have determined that portions of the documents will be withheld pursuant to Exemptions of the FOIA. The specific Exemptions applied are identified within the enclosed documents. Descriptions of those Exemptions are enclosed.

If you are not satisfied with the response to this request, you have the right to appeal following the procedures outlined in the DHS regulations at 6 C.F.R. § 5.9. Should you wish to do so, you must send your appeal and a copy of this letter, within 90 days of the date of this letter, to:

U.S. Immigration and Customs Enforcement
Office of the Principal Legal Advisor
U.S. Department of Homeland Security
500 12th Street, S.W., Mail Stop 5900
Washington, D.C. 20536-5900

Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS regulations are available at www.dhs.gov/foia.

If you need any further assistance or would like to discuss any aspect of your request, please contact the FOIA office and reference the ICE FOIA case number in the subject line of this letter. You may send an e-mail to ice-foia@ice.dhs.gov, call toll free (866) 633-1182, or you may contact our FOIA Public Liaison in the same manner. Additionally, you have a right to right to seek dispute resolution services from the Office of Government Information Services (OGIS)

which mediates disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. If you are requesting access to your own records (which is considered a Privacy Act request), you should know that OGIS does not have the authority to handle requests made under the Privacy Act of 1974. You may contact OGIS as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Sincerely,

A handwritten signature in blue ink that reads "Michael T. Johnson" with the word "For" written in smaller letters below the name.

Catrina M. Pavlik-Keenan
FOIA Officer

Privacy Act Exemption (k)(2) protects investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence.

FOIA Exemption 6 exempts from disclosure personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

FOIA Exemption 7(C) protects records or information compiled for law enforcement purposes that could reasonably be expected to constitute an unwarranted invasion of personal privacy. This exemption takes particular note of the strong interests of individuals, whether they are suspects, witnesses, or investigators, in not being unwarrantably associated with alleged criminal activity. That interest extends to persons who are not only the subjects of the investigation, but those who may have their privacy invaded by having their identities and information about them revealed in connection with an investigation. Based upon the traditional recognition of strong privacy interest in law enforcement records, categorical withholding of information that identifies third parties in law enforcement records is ordinarily appropriate. As such, I have determined that the privacy interest in the identities of individuals in the records you have requested clearly outweigh any minimal public interest in disclosure of the information. Please note that any private interest you may have in that information does not factor into this determination.

FOIA Exemption 7(E) protects records compiled for law enforcement purposes, the release of which would disclose techniques and/or procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. The disclosure of certain law enforcement sensitive information contained within the responsive records could reasonably be expected to risk circumvention of the law. Additionally, the techniques and procedures at issue are not well known to the public.

THERE SHOULD BE NO EFFECT ON SYSTEM LIFETIME. POSSIBLY ENHANCED BECAUSE ELECTRONIC COMPONENTS WOULD ALSO BE THERMALLY STABILIZED BEFORE UCL.

SYSTEM WILL WORK WITHOUT PREHEAT BUT WILL NOT MEET YOUR SPECIFICATION FOR STABILITY OF POKKEL CELL TEMPERATURE AS SPECIFIED UNDER 2.15 OF YOUR SPECS.

AFTER THE FIRST TIME THE SYSTEM IS TURNED ON IT MAY BE LEFT IN A STAND BY MODE INDEFINITELY WHICH WOULD UTILIZE A MINIMUM OF POWER AND ALLOW THE SYSTEM TO STABILIZE WITHIN THE SPECIFIED 20 SECONDS. ALSO-- 30 MINUTE WARM UP IS CONSERVATIVE. PROBABLY WOULD ONLY TAKE 10 TO 20 MINUTES.

SYNOPSIS

1. The purpose of this report is to forward a copy of the Attached Criminal Case Report to the CA/ROME, to be used as reference material in an effort to persue leads as outlined below.

2. BACKGROUND:

- A. For several years R (b)(6);(b)(7)(C);(k)(2) has done a substantial amount of business with Israel in the munitions area. All of (b)(6);(b)(7) shipments have been made through HELI TRADING, LT of Tel Aviv. (b)(6);(7) has an agreement with (b)(6);(b)(7)(C);(k)(2) owner or co-owner of HELI that 60% of SMYTH'S gross profit on these transactions is paid to (b)(6);(b)(7)
- B. Late in 1979 (b)(6);(7) and (b)(6);(b) (And/or (b)(6);(b)(7)(C) Agents), agreed that (b)(6);(7) would acquire and ship to HELI TRADING a number of Krytrons. Beginning in January, 1980, shipments commenced.
- C. During 1980 (b)(6);(7) shipped 610 Krytrons to HELI. All were invoiced and shipped as "pentodes," (a false and inaccurate description). All correspondence relating to these transactions referred to "project pinto." It seems that all of (b)(6);(7) projects with Israel were given code names.
- D. At least as early as July, 1980, (b)(6);(7) was advised by the manufacturer of the Krytrons that exportation of Krytrons required a validated export license.
- E. In July of 1982, additional Krytrons were needed and ordered. (b)(6);(b)(7)(C);(k)(2) shipped an additior 200, just as before.
- F. On January 10, 1983, HELI inquired as to the availability of more and bigger Krytrons. At this point, an end-user certificate was demanded by (b)(6);(7)

3. It is most likely that the subject Krytrons were imported into Israel for use in Israel. However, diversion to South Africa, Pakistan or some other country is possible.

UNDEVELOPED LEADS: CA/RDME

1. Determine, in so far as possible, the end-user of the Krytrons and the use to which they have been put.
2. Develop identifiers and background on:

 - E. (b)(6);(b)(7)(C);(k)(2)
3. Determine identity of any conspirators unknown to us and evidence of culpability.
4. Elicit an explanation for the "Special Handling Charge" of \$1800.00 per 50 units.
5. Obtain any telex's, correspondence, or notes relating to this project.

SYNOPSIS

Since approximately 1978 (b)(6)(b)'s company, MILCO International, Inc., has purchased equipment for various agencies of the Israeli Government and industries in Israel. In connection with these Israeli transactions, (b)(6)(b) has been doing business with (b)(6)(b)(7)(C)(k)(2), an Israeli citizen who operates Heli Trading, Ltd., in Tel Aviv. (b)(6)(b) is said to be a movie producer. He maintains apartments at Rue Singer, 16, Paris, France; Herzlia Towers, North Tel Aviv, Israel; and on East Forty-Ninth Street, New York, New York. (b)(6)(b)(b) is said to have an office somewhere in New York City. (b)(6)(b)(7) is assisted in Israel by (b)(6)(b)(7)(C)(k)(2), also known as Mrs. (b)(6)(b)(7)(C). (b)(6)(b)(b) receives 60% of Milco's net profit on deals arranged by (b)(6)(b)(7).

At some time in 1979 (b)(6)(b)(7)(C)(k)(2) and (b)(6)(b)(7)(C)(k)(2) entered into a conspiracy to illegally export certain U.S. Munitions List items, specifically, krytrons from the United States to the Republic of Israel without the required authorization from the United States Department of State. A total of 800 krytrons were exported by (b)(6)(b) pursuant to this conspiracy during the period January 1980 through December 1982.

To facilitate the goal of the conspiracy, (b)(6)(b) made use of a corporate entity controlled by him, Micro Nav Systems, Inc., (MICRONAV), to purchase krytrons from EG & G, Inc., the sole manufacture of krytrons.

Upon receipt of krytrons from EG & G, (b)(6)(b) caused the krytrons to be exported to (b)(6)(b)(7)(C)(k)(2) of Heli Trading, Ltd., in Israel, (HELI) using either Micro Secom Systems, Inc, (MSS) or Milco, Inc., (MILCO), as the exporting firm, (both MSS and MILCO are corporations controlled by (b)(6)(b). In each case the krytrons were identified on invoices and on export documents as "Pentodes".

The krytrons project was just one of several of (b)(6)(b)'s projects going on in Israel. All shipments for all projects went through HELI. Each project was code named. The krytron project was coded "PINTO".

(b)(6)(b)(7)(C)(k)(2) is an experienced exporter of munitions list articles, having supplied such material to Israel for approximately six years. As far as is known, all projects, exclusive of the krytron project, have been properly licensed by the Office of Munitions Control, U.S. State Department.

SMYTH is technically sophisticated; he holds a bachelors degree in physics from Cal-Tech and both a masters and s PhD in electrical engineering from the University of Southern California.

ORIGIN OF CASE:

In March of 1983, I was advised by Special Agent (b)(6)(b)(7)(C)(k)(2), Federal Bureau of Investigation, that during the course of investigating a theft of government property from the premises of Milco International Inc., (MILCO) in Huntington Beach, California, he had learned that MILCO may have illegally exported certain vacuum tubes to the Republic of Israel. Agent (b)(6)(b)(7) told me he came to this knowledge when he was told it by (b)(6)(b)(7)(C)(k)(2) President of MILCO. (b)(6)(c) subsequently prepared a report for the FBI, (attached as Exhibit 1), addressing certain theories he had about the MILCO burglary. In this report he admitted "bending the law" in connection with the shipment of the vacuum tubes to Heli Trading, Ltd., of Tel Aviv, Israel (HELI).

On April 13, 1983, Special Agent (b)(6)(b)(7)(C)(k) and I visited (b)(6)(b)(7)(C)(k)(2) at the premises of MILCO. (b)(6)(c) told us that MILCO trades with the Republic of Israel through HELI. He told us he had supplied approximately 200 high speed switching tubes, which he called "pentodes", to HELI during the last part of 1982, shipping them in four shipments of fifty each. (b)(6)(c) said he shipped the tubes under the authority of the Department of Commerce General License "G-Dest" saying he may have bent the law by doing so as he knew the tubes required a license for export. (b)(6)(c) told us the invoices from his domestic supplier of the tubes contained an admonition to the effect that a license was required.

(b)(6)(c) allowed us to review documents relating to the four shipments and provided us with copies.

On April 15, 1983, Special Agent (b)(6)(b)(7) called on (b)(6)(c) again to obtain additional documents. At that time (b)(6)(c) told Agent (b)(6)(c) that "pentodes" and krytrons were the same thing.

On April 29, 1983, Agent (b)(6)(c) spoke by telephone with Mr. (b)(6)(b)(7)(C)(k)(c) of the U.S. Department of State, Office of Munitions Control. Mr. (b)(6)(b), a licensing officer told Agent (b)(6)(c) that krytrons were used as switching devices for lasers and as triggers for atomic weapons and may not be lawfully exported without a validated license from the U.S. Department of State, (Munitions List Category XVI (c). *available can be used as a laser, etc. for military, scientific, medical, etc. purposes*)

A license check with the Department of State confirmed (b)(6)(b)'s statement that MILCO had several licenses for exporting munitions list articles to HELI but none covering krytrons or pentodes.

On May 13, 1983, a search warrant was executed at MILCO and a number of documents relating to the export of krytrons/pentodes were seized.

Investigation has disclosed 15 shipments of krytrons from MSS or MILCO to HELI. None of the shipments were licensed. Attachment A to this report details each of the 15 shipments.

DETAILS:

On October 1, 1979, (b)(6):(b)(7)(C):(k) telexed Dvora regarding "pinto". Prices for two types of krytrons, "KM-2" and "KM-6" were quoted in quantities of 600 each. (See Exhibit 2)

A follow up telex that same day from (b)(6):(b)(7)(C):(k) to (b)(6): advised that an End Users Certificate would be needed for Pinto and that he understood that (pinto) was needed for rocket fusea. (See Exhibit 3)

Another follow up telex, also dated October 1, 1979, advises that the prior two messages on Pinto should be disregarded, they had been sent erroneously. (See Exhibit 4). 23 minutes later, another telex, from (b)(6):(b)(7)(C):(k)(2) was sent to (b)(6): requesting a time and telephone number where (b)(6): could reach (b)(6):(b) (See Exhibit 5)

On October 2, 1979, (b)(6): telexed to (b)(6): thanking him for the quote and advising not to proceed until further notice. (See Exhibit 6)

There is no more documentation of negotiations until November 29, 1979, the date of a formal quotation from EG & G, offering KN-2 and KN-6 krytrons for \$39.00 and \$51.00, respectively, to Micromav (Sic) Systems. (See Exhibit 7)

On December 3, 1979, (b)(6):(b) telexes (b)(6):(b) "Can send sample of 10 each type 2 and 6 per discussion with (b)(6):. Price for sample is USD 1,350. No EUC required..." (b)(6):(b) goes on to quote a price for 590 of each type. Handwritten on this telex is "Schedule 'B' number 687.6013. General License". (See Exhibit 8)

A telex from (b)(6): to (b)(6): regarding "Pinto - YTLX 3.12.79", dated December 5, 1979, accepts the offer of the sample "provided no EUC required." Telex goes on to say, "However, as pointed out during your visit, no further inquiries for price quote of larger quantities should have been made". A struck-over portion of the telex reads "This is of utmost importance". (See Exhibit 9)

A December 6, 1979, telex from (b)(6): to (b)(6):(b) advises that only type 6 is needed and inquires as to price. (See Exhibit 10)

By letter dated December 12, 1979, (b)(6):(b)(7)(C):(k) forwarded to (b)(6):(b) invoice 102-PEN-7912 and Pentode Data Sheets. (See Exhibit 11)

By telex dated December 27, 1979, (b)(6):(b) advised that funds for Pinto have been transferred. (See Exhibit 12)

A Micro Secom Systems letter, dated January 7, 1980, to Fritz Air Freight, authorized the shipment of one pound package to Heli Trading. The letter advises that the appropriate Schedule B number (required for export control documents) is 687.6013. (See Exhibit 13)

A telex from (b)(6):(b) to (b)(6): dated January 8, 1980, advised the number of the

air waybill and the flight number aboard which Pinto was shipped. (See Exhibit 14).

By February 7, 1980, a follow-up order for more krytrons was about to be placed; (b)(6)(b) telexed (b)(6)(b) quoting a price of \$3,450 for 50 each KN-6, adding that there would be a special handling charge of \$2500 per shipment of 50 units. (See Exhibit 15).

By telex the next day (b)(6)(f) advised (b)(6)(f) that, "After considerable discussion with (b)(6)(f) today, we have agreed to reduce Special Handling Charge per shipment from USD 2500 to USD 1800, or a total of USD 5220 (sic) per shipment. (See Exhibit 16).

This price was acceptable, and through October of 1980, (b)(6)(f) supplied an additional 600 KN-6 krytrons through Heli.

Invoice 50217B from EG & G to MicroNav Systems dated June 27, 1980, contained the typed admonition: "In the event that the commodities on this sales order are to be exported from the United States, a validated export license is required." From this point onward, all EG & G invoices and packing lists contained this admonition. (See Exhibit 17).

Attached as Exhibit 18 is a handwritten work sheet obtained from MILCO titled Procedure for Handling Export Transactions. It is dated 6 April 1980 and is, in essence, a flow chart showing step-by-step how to process export transactions. About the middle of the flow chart there is a box wherein is written "Need Export License?" If the answer is yes the flow chart guides the reader through the steps necessary to apply for a license and requires receipt of the license before completion of the further shipment steps. This document also provides guidelines for mark-up; Special - 20%, Nominal - 30%, Unusual - 50%. Note that (b)(6)(b) marked up the krytrons, for which he paid \$45.00, by approximately 134% to a unit cost of \$105.00. (See Exhibit 18).

After the last shipment in 1980, which occurred on or about October 9th, there is no evidence of any further interest in krytrons until July 22, 1982, when (b)(6)(b) telexes (b)(6)(b)(7)(C)), referencing Pinto, advising that there is a new urgent inquiry for 100 units KN-6 and 100 units KN-6B, and asking whether these "may be processed like former order". (See Exhibit 19). By telex dated July 23, 1982, (b)(6)(f) advises (b)(6)(f) that KN-6, and KN-6B may be had for \$100.98 and \$120.87 each, respectively, in quantity of 100 each. An additional charge of \$1800 per shipment of 50 units is required as a special handling charge. (See Exhibit 20).

By telex of July 27, 1982, (b)(6)(f) orders 200 units "per YTLX July 24". (See Exhibit 21). By purchase order 8207-PEN-513 dated July 27, 1982, (b)(6)(b)(7)(C)(k)(f) placed an order to EG & G for the desired krytrons. (See Exhibit 22).

By telex dated September 25, 1982, (b)(6)(f) advised (b)(6)(b) all units are ready for

shipment and will be shipped upon receipt of funds. (See Exhibit 23). The 200 krytrons were shipped in Heli in four shipments of 50 each. (25 of each type). The last shipment occurred on or about December 14, 1982.

On or about January 10, 1983, (b)(6);(f) again telexed that "60 additional units (bigger model)" were needed and inquired as to price and availability. (See Exhibit 24). On or about January 16, 1983, (b)(6);(f) replied via telex, "pls submit State Dept EUC". (See Exhibit 25).

The following is paraphrased from (b)(6);(f)'s report, prepared for the FBI, and attached as Exhibit 1:

During the week of January 3, 1983, MILCO was notified by the U.S. State Department that an export license which had been in effect for about 18 months had been cancelled. This was approximately 3 weeks before the scheduled delivery of the item--a non-tunable receiver--to Heli Trading.

(b)(6);(f) told (b)(6);(b)(7)(C);(k) about the cancellation. (b)(6);(b) asked (b)(6);(b) to go ahead with the purchase and ship it to another destination or allow it to be picked-up by someone in the United States.

On January 12, 1983, (b)(6);(b) met with officials of the U.S. Munitions Control Office to discuss the export license cancellation. (b)(6);(b) was informed that the cancellation was final and that Israel had been turned down when they had previously applied for a license for this item.

After (b)(6);(f) advised (b)(6);(b)(7) via telex that the license cancellation still stood, he was telephoned by (b)(6);(b)(f) and (b)(6);(f) and (b)(6);(b)(7) again solicited him to illegally ship the receiver. At this time (b)(6);(b)(7) also requested that the krytrons be shipped as before.

(b)(6);(f) says he refused to comply and told (b)(6);(b)(7) to provide an end-users certificate for the krytrons.

As noted above, appended as "Attachment A" are collective exhibits documenting fifteen separate violations of the Arms Export Control Act.

Respectfully,

(b)(6);(b)(7)(C);(k)(2)

My office, on behalf of the United States Customs Service and
the United States Department of Justice is officially requesting
your assistance in obtaining any Israeli Customs and/or other
importation documents related to these shipments. These documents
may subsequently be used in United States judicial proceedings.
Israel Customs and V.A.T. suggested that this request be referred
to the Ministry of Defense.

Customs Representative, (b)(6);(b)(7)(C);(k)(2), of this office,
who is aware of the details and technical aspects of this
investigation, will respond quickly to any additional information
needed by your staff.

At the present time the trial date set in Los Angeles, California,
is August 12, 1985. In order to adequately prepare for prosecution,
the U.S. Customs Service would prefer to receive these documents
as soon as possible. Your expeditious response to our request
would be appreciated. In addition, if I can be of any assistance,
please do not hesitate to call this office. Thank you again for
your assistance.

Dear Mr. [REDACTED],

Thank you for your letter dated July 24, 1985, which reached me only on August 18, 1985.

In response to your request, I would like to refer to my letter addressed to the Embassy of the United States in Tel-Aviv, dated June 4, 1985, in which I stated as follows:

"Following our willingness to cooperate with the United States Government on the subject of the import of Krytrons to Israel, we have further inquired into the matter, and are in the position to state as follows:-

1. HELI-TRADING LTD., an Israeli Company, was requested by a Procurement Agency of MOD to supply 810 Krytrons. The purchase order was placed with Heli-Trading Ltd., in accordance with MOD Procurement procedures.
2. The aforesaid Krytrons were ordered between 1979-1982.
3. The Krytrons were ordered for the purpose of various non-nuclear defense-related programs and, indeed, they were used only for such programs. Specific details were described to American Embassy representatives at meetings held on May 13th and May 23rd, 1985 at MOD. We wish to treat the detailed information submitted to you with respect to the use of the aforesaid Krytrons, as confidential.
4. We wish to reiterate our prior statements, namely that MOD was the end-user of all the Krytrons, the Krytrons were not and will not be used for any nuclear program and that said Krytrons were not and will not be transferred to any other end-user.
5. At your request, we will deliver you the unused Krytrons in our possession".

Mr. (b)(6);(b)(7)(C);(k)(2)
Ref: Internet page (k)(2);(b)(7)(E) (18/8/01)
Subject: Sale of krytrons to Heli trading, Ltd.

Dear (b)(6);

much changed

Our names have been linked again in the referenced web page. I was surprised how ~~little~~ you've changed since the last time I saw you in 1985. I still feel young and vibrant at 72 years since I run a mile every day. My hair is all white and thinning on top.

At the present time, I am in prison in Malaga, Spain, awaiting extradition to the USA for exporting krytrons from the US to your company, Heli Trading, Ltd, using a Commerce License rather than a Munitions License. The reason I was arrested: I went to the Malaga Police Station for my non-resident certificate as required by my Málaga bank for my Social Security (US pension) bank account. While waiting 2 hours for the certificate, an Interpol FAX came in about the old krytron case. I was arrested on the spot and sent immediately to jail. I've been in this Spanish prison for three months and 10 days along with murderers, armed bank robbers, drug dealers, and drug addicts. It hasn't been a very pleasant experience with violent outbreaks that could threaten my life at any time. I expect to be extradited to the US within 2 or 3 weeks from today.

I have been living in Málaga, Spain, under a nom d'plume (b)(6);(b)(7)(C); for 16 years, writing hooks and software for options trading on the Chicago and London Options Markets, making a good return on what little capital I have. I had to leave behind my multi-million dollar real estate holdings when I fled the US to Málaga in August 1985. I had been indicted for smuggling krytrons to you at Heli Trading. The US authorities kept asking me to list all the things you had done wroog. I told them I didn't believe either you or I had done anything wrong. I hadn't "smuggled" krytrons, I had exported them to you using a perfectly legal Commerce License. The authorities believed it should have been a Munitions License.

(b)(6);(b)(7)(C);(k)(2)

I have retained an excellent lawyer named (b)(6);(b)(7)(C); who is confident he can "plea bargain" my case and get me released with a fine and credit for time spent in prison in Spain.

I have two propositions to make to you which should avoid bringing the case to trial which would be "messy" and you would certainly be called as a witness with all the adverse publicity.

My first proposition: pay the \$35,000 of (b)(6);(b) fee since I only have less than \$10,000 in my Málaga bank account. This would greatly aid me.

He does not know

A second proposition which would make back the lawyer fee: Set up an account in your name (and non-US address) with Man Financial Ltd. in London with \$100,000 in dollars and £50,000 stipulating that I would be authorized to trade in your behalf using my nom d'plume Jon Schiller, which the head broker, Mr. Duncan Dunn, knows quite well. Man Financial would put the dollars in NY (not traceable to you) and the pounds in London. I would trade OEX naked spreads or covered spreads with the NY funds and the same strategies using SEI (American style FTSE-100 options) in London. These strategies are explained fully in my book "The 100% Return Options Trading Strategy", published by Windsor Books of Brightwaters, NY. Many copies have been sold all over the world.

Continuing with this second proposition: 75% of the trading profits would go to you, paid semi annually, and 25% of the trading profits would be paid to me, semi annually. The payment dates would be 1 Jan and 1 Jul each year. Man would send you monthly trading statements; they have a web page for you on the Internet if you or your accountant would like to check the trading results and funds in your account at any time – both the dollars and pounds. You could cancel the options trading at any time you wished.

I would expect that the \$35,000 lawyer's fee would be earned back in about 6 months or less.

Arnon, for old times sake, I would greatly appreciate your granting these two propositions.

I was delighted to hear your former employee, Netanyahu, had become Prime Minister of Israel. I heard from someone that (b)(6) had left. I hope it was false information, since she was such a delightful and intelligent woman to work with.
