Dear Campus Jewish Leaders:

Many of you have come to us in the past few years with reports of alarming increases in anti-Semitic incidents and anti-Israel propaganda on your campuses and have asked for our assistance. To respond to your requests and concern more effectively, the Anti-Defamation League has developed a special program to help Jewish student leaders combat anti-Semitism and anti-Israel propaganda and create positive images of Jews and Israel.

Our ADL campus Hasbara Network has established a part-time campus coordinator position of the coming year. This year's coordinator will be Jordan Millstein. Jordan will be constructing a network of contacts at the more than 20 campuses in our region through which he will be able to monitor campus activities and provide our expertise as it is needed.

BUT WE NEED YOUR HELP......To enable Jordan to be most effective - and to help you increase your number of involved students -- we request that you select two or three students who will serve this year as ADL liaisons on your campus. Jordan will call you within the next two weeks to get the names and telephone numbers of those students.

Jordan will also be creating materials to aid you and your students. Enclosed you will find his first project -- a booklet containing background information on pro-Arab sympathizers who are active on college campuses. Should you need more information on these individual groups or any others, please call us. Also, if you have knowledge of any individuals or groups not listed in the booklet, please pass the information on to us so that we can have a more complete and useful listing.

Thank you for your assistance in finding student contacts for us. Working together, we're sure that we can create a better climate for Jewish students on campuses everywhere.

Sincerely,

Leonard Zakim
Executive Director

P.S. One note of caution--this booklet should be considered confidential. Although most of the information contained in it is derived from public sources, it easily could be misconstrued. Please use your discretion.
Anti-Israel propaganda has escalated since the 1982 Israeli action against the PLO in Lebanon. College and university campuses have been targeted as special focal points. Pro-Arab propagandists make their point well. Catchwords likening Israel's 1982 action to the Holocaust and Israel to "the Nazis" are powerfully persuasive. Israel is depicted as a "militaristic," "brutal," and "oppressive" nation.

The ultimate goal of these anti-Israel, pro-Arab propagandists is to sway Americans from their historically strong support for Israel. This is cause enough for concern. Even more alarming, however, is the fact that many of these propagandists use their anti-Zionism as merely a guise for their deeply felt anti-Semitism; for example, in the last two years, pro-Arab students physically threatened and intimidated Jewish students at San Francisco State University who were viewing and publicizing a television documentary on the PLO, pro-Khomeini Moslem students distributed the Protocols of the Elders of Zion on the U.C. Berkeley campus, and former Representative Paul (Pete) McCloskey likened Menachem Begin to Hitler and accused Jewish Stanford students of "Jewish censorship" while a guest professor at Stanford University.

It is essential that campus Jewish leaders be aware of these actions and the groups and individuals behind them. The purpose of this booklet is to identify the leading individuals and organizations which have mounted campus campaigns against Israel.

NOTE

The contents of this booklet have been arranged in alphabetical order within two separate sections: Organizations and Individuals. Following are three appendices: National Organizations Involved in Northern California, Local Organizations, and Local Individuals.
