With this view in mind, the three offices receiving this memorandum should undertake surveys for the purpose of compiling lists of names of prospective informants. In addition to considering the positions of the prospective informants. [REDACTED]

b7E

When the lists have been compiled, they should be submitted to the Bureau. They should include, with respect to each person named, information regarding his background, whether he has ever been to [REDACTED]

b7E

In conducting this survey, under no circumstances should any prospective informant be approached without prior Bureau clearance.

You are requested to give immediate attention to this matter.

b7E

b7E

For these reasons, I feel that we should instruct the Los Angeles, New York and Washington Field Offices to undertake surveys for the purpose of compiling lists of prospective live informants. If you agree with this procedure, it is contemplated that when the lists are received at the Bureau, they will be given careful consideration. If it is decided that one or more of these prospective informants can with security be approached, consideration will be given to discussing the matter with an appropriate official of the Department of State before any action is taken. I feel that the State Department may be inclined to give its approval to our efforts to develop live informants in view of the considerable amount of material which the State Department has received

ACTION:

A proposed memorandum has been prepared for the WFO with copies for Los Angeles and New York instructing that the surveys described above be undertaken immediately. If it meets with your approval, this memorandum will be sent to the field.

You reported that you did not believe that the investigation of the American Zionist Emergency Council as such would be practical at the present time. You have indicated further that you feel it is more practical to determine the extent of ZOA's [redacted] by determining the nature and extent of contacts between the various [redacted] ZOA representatives.

The Bureau is in accord with your suggestions. If such information is developed, it is expected that you will make a recommendation to the Bureau concerning the advisability of opening cases on the organizations involved.

TO : Director, FBI

SUBJECT: [redacted]

DATE: September 19, 1950

b3
b7E

Re Bureau letters dated May 11, 1950, and August 31, 1950, requesting discreet investigation into the possibility of the American Zionist Emergency Council [redacted] in their intelligence operations in the United States.

b7E

During the course of extensive investigation conducted by this office concerning [redacted] in the United States no specific evidence of such assistance has been developed with the exception of [redacted] referred to in Washington Field Office letter to the Bureau dated June 1, 1950, re captioned matter and with which referenced Bureau letters were concerned.

It is to be expected that the relationship between the [redacted] and the Zionist Organization of America, including its affiliates, is close, especially in view of the economic assistance [redacted] particularly through UJA, the fund-raising arm of the ZOA. In view of this relationship, it is of course conceivable that ZOA representatives or members would be disposed to furnish intelligence data [redacted] if the opportunity so presented itself; however, in view of the lack of specific evidence of active assistance regarding intelligence matters it is not believed that investigation of the American Zionist Emergency Council, as such, would be practical for the present at least.

It is believed that at the present time, active investigation of [redacted] known or suspected of intelligence activities and the determination of the nature and extent of their contacts with ZOA representatives would be most practical in determining the extent of ZOA assistance to [redacted]
