It is believed that it might materially assist the Bureau in deciding whether there are any investigative phases which have not yet been explored in captioned matter. We could secure the comments of the appropriate representatives of G-2, OSI and ONI with regard to this communications intelligence item. In this respect, it may be noted that Colonel James B. Berry today advised W. R. Wannall, Espionage Section, that both General Bolling and Admiral Johnson have seen the communications intelligence item involved. Colonel Berry further stated that the Department of the Air Force no longer receives communications intelligence items at their own request. However, General Cabell is cleared for communications intelligence material and has expressed an interest in receiving information with regard to any item which refers directly to the Air Force.

If it is recommended that our Liaison Section secure from the appropriate representatives of G-2, OSI and ONI their comments with regard to the possible meaning of the communications intelligence item described above, it is suggested that Gen. [redacted] has advised the Bureau that on May 7, 1951 an article by George Weller appeared in the Chicago Daily News under the caption "How U. S. Agents Leaked Arab Secrets."

b3  
b7E

The lead line to this article was "Uprooting of a double case of Israeli espionage in the Central Intelligence Agency in Washington has led to an improvement in the position of American military attaches in the Middle East." The article indicated that in 1949 during talks by the Arabs and the Israelis it became apparent that highly classified information on Arab matters which had been released by the Arabs only to American military attaches in the Middle East was being sent back to the Israeli General Staff. The article indicated further that two Americans were responsible for these leaks to the Israelis and that it is not known what happened to these two Americans. It stated that the Arab nation barred all American attaches from security areas for awhile but the Arabs have now been assured that the "Washington espionage" has ceased and are now beginning to loosen up.

In view of the direct bearing of the statements in this article on our investigation in captioned matter, you are requested to forward immediately to the Bureau and to the Washington Field Office copies of the article. Three photostatic copies will be sufficient for the Bureau's purposes.
