(U) ~~(S/NF)~~ Ensuing investigation by the FBI's Computer Analysis Response Team (CART), located at Quantico, Va., after preliminary analysis of the computer hard drives seized at Urban Moving Systems, in Weehawken, N.J., [redacted]

b7E

[redacted]

(U) ~~(S/NF)~~ Recent analysis of an acquired surveillance tape from an Exxon gas station located in Weehawken, N.J., showed a possible match to the white van that [redacted] was driving in the morning of 09/11/2001. Of note is that the local time and position of the van, if this van is identical to [redacted] could support a witness testimony that places one or more of the individuals at a viewing position in place before the first World Trade Tower was hit by the United Airlines commercial aircraft.

b6
b7C

(U) ~~(S/NF)~~ By way of background, Newark conducted its own investigation into the possible foreknowledge of the five individuals concerning the WTC terror attack. Shortly before [redacted] was scheduled to receive a polygraph examination, Newark, due to increasing investigative needs, reassigned its assets to include its polygraph unit, to other matters. [redacted] is presently believed to be represented by legal counsel.

b6
b7C

(U) ~~(S/NF)~~ To aid in determining [redacted] association or prior knowledge of the terrorist attack on the World Trade Tower, SAC authorization to administer an FBI-NYO polygraph on [redacted] is requested.
